## UBC Campus re-opening for September 2021

The university is currently planning for a transitioned return to campus for the fall of September 2021. We have been watching the course of the COVID-19 pandemic carefully and continue to work closely with public health officials to ensure that appropriate measures are put into place so that faculty, staff, and students can return safely to campus for in-person teaching and learning. The student experience is front of mind as plans to support on-campus activity are developed. **Students have (or will receive very shortly) communications from their faculty or program regarding course delivery. To confirm, course delivery will depend on the program and be either fully in-person or take a hybrid model (a combination of in-person and online instruction).**

A virtual town hall was recently held in which Dr. Bonnie Henry, BC's provincial health officer, responded to questions from senior post-secondary leaders. During this event, Dr. Henry answered questions on subjects ranging from mask-wearing to classroom safety, to HVAC systems, medical accommodations, and more. I encourage you to view it at <https://www.youtube.com/watch?v=nM1UIAm6nbA>. The provincial government also recently published the *COVID-19 Return-to-Campus Primer* (<https://www2.gov.bc.ca/assets/gov/education/post-secondary-education/institution-resources-administration/return-to-campus-primer.pdf>). This document provides information about the key public health planning assumptions and safety measures necessary to safely guide our planning over the coming months.

Although a return to campus for September 2021 is welcome news for students, I understand that sponsors will have many questions, therefore further updates can be expected in the coming months. For the latest updates and FAQ's, I encourage sponsors to bookmark and refer to the following links:

## VCC Return to Campus Plans

In accordance with Phase 3 of the Province of British Columbia's COVID-19 Restart Plan, VCC has developed individual return-to-campus risk mitigation plans to support a gradual return to essential, on-campus learning. Plans have been customized by department and are available on the VCC website.

Vancouver Community College is adhering to all orders declared by Provincial Health Officer and that regular monitoring of orders and public health guidance will be part of routine operations and that plans, protocols, and processes will be updated routinely to reflect the dynamic nature of the COVID-19 pandemic.

Please check website or program administrator for information on your specific program.

## Langara Return to Campus Plan

In the upcoming months, we look forward to safely opening up our campus. We are excited to share our phased approach that aligns with [BC's Restart Plan](#).

## Safe Drinking Water Monitoring Program

Charlene Campbell-Wood

**Safe Drinking Water Foundation (SDWF) is a registered Canadian charity and has been one since January 1998**

### Our Mission, Vision and Goals

#### Our mission

We will educate the leaders of today and tomorrow about drinking water quality issues to realize our goal of safe drinking water being available to every Canadian.

#### Our Vision

To reaffirm and promote all people's right to safe drinking water. With a focus on developing partnerships with rural communities throughout Canada and around the world, we intend to effect change at the municipal, provincial, and federal levels as well as within civil society and industries involved in the protection and production of public water supplies.

We will deliver high quality, hands-on educational programs to thousands of classrooms in order to educate students, the leaders of tomorrow, about drinking water quality issues and solutions.

### Our Goals

Our vision will be reached in Canada when the following goals have been achieved:

- National drinking water regulations are implemented and enforced, resulting in all communities in Canada having access to truly safe drinking water.
- The federal government of Canada recognizes at the United Nations that water is a basic human right. SDWF is a registered Canadian charity. Its primary purpose is to educate community leaders, politicians, engineers, health officials, students and the general public about drinking water quality issues and solutions. The SDWF accomplishes this by developing and distributing high quality, hands-on educational programs to thousands of schools, delivering webinars, and maintaining a massive website with lots of information available free of charge. SDWF is independent from municipal, provincial and federal governments and led by a Board of Directors. SDWF emphasizes sound solutions to poor quality water.
