# Musqueam, Squamish, Tsleil-Waututh and the City of Vancouver unveil UNDRIP action plan

On Monday, June 3, the City of Vancouver announced a five-year UNDRIP Action Plan with a celebration at the Vancouver Convention Centre. Musqueam, along with our relatives at Squamish and Tsleil-Waututh, collaborated with the city on the creation of the plan and co-hosted ceremony to acknowledge the hard work of staff.

Musqueam Councillors Howard Grant and Allyson Fraser are members of the intergovernmental group who lead the work at the political level. Musqueam staff Gracieline Ulu, Desirae Fraser and Jeneen Sutherland also contributed administrative support to help ensure Musqueam's voice was heard in a meaningful way.

The 'Plan' contains 88 deliverables under these five 'thematic areas':

- Relationship Foundations
- Redress, Housing and Land
- Cultural Presence
- Stewardship and Addressing Environmental Racism
- Communication & Accountability

If the goals of the plan are realized, Musqueam could see some first steps in the advancement of UNDRIP in our community.

Read the plan online at [vancouver.ca/files/cov/undrip-action-plan-2024-2028.pdf](https://vancouver.ca/files/cov/undrip-action-plan-2024-2028.pdf)

# 48 years since signing the Musqueam Declaration

The Musqueam Declaration was signed on June 10, 1976 by Musqueam members and leadership to declare our inherent rights to our lands, waters, resources and self-governance.

"We, the Musqueam people openly and publicly declare and affirm that we hold aboriginal title to our land, and aboriginal rights to exercise use of our land, the sea and fresh waters, and all their resources within that territory occupied and used by our ancestors.

It is our right to govern ourselves and our communities, to up-hold and determine our own customs, beliefs and laws."

The map below is included in the declaration and outlines Musqueam's ancestral territory and place names. This boundary has never changed and these sites continue to be important to our people.

We continue to be grateful to our ancestors for their leadership, which we work hard to continue today to ensure a better future for the Musqueam generations to come.

## Musqueam DECLARATION

We, the Musqueam people openly and publicly declare and affirm that we hold aboriginal title to our land, and aboriginal rights to exercise use of our land, the sea and fresh waters, and all their resources within that territory occupied and used by our ancestors, namely:

The lands, lakes and streams defined and included by a line commencing at Harvey Creek in Howe Sound and proceeding Eastward to the height of land and continuing on the height of land around the entire watershed draining into English Bay, Burrard Inlet and Indian Arm; South along the height of land between Coquitlam River and Brunette River to the Fraser River, across to the South or left bank of the Fraser River and proceeding downstream taking in the left Bank of the main stream and the South Arm to the sea, including all those intervening lands, islands and waters back along the sea shore to Harvey Creek, AND the sea, its reefs, flats, tidal lands and islands adjacent to the above described land and out to the centre of Georgia Strait. (These lands and waters are described on the map accompanying this declaration.)

We, the Musqueam people, are members of the Musqueam Indian Band and/or persons of one quarter Musqueam Indian Ancestry descended from those *Musquimiyum* speaking people who from time immemorial occupied used and gained their livelihood from those lands, waters and seas as described above.

Our ancestors aboriginal right and our aboriginal right, is to live upon and travel over our aboriginal lands, seas and waters without foreign control or restriction to utilize, trade and consume all the resources and products of those lands, waters and seas. It is our right to govern ourselves and our communities, to up-hold and determine our own customs, beliefs and laws.

Neither we nor our ancestors have ever given up, extinguished or diminished our aboriginal rights and title by treaty or agreement with any foreign government or power. We have never considered the bits of land called "Indian Reserves" as compensation for our lost rights and cannot consider them as adequate compensation.

We have never accepted or agreed to the right of governments of Canada or British Columbia, or their agents, to tell us how to run our own affairs or determine how we should live our lives.

We, the Musqueam people, hereby declare our intent to exercise our aboriginal rights, to restore to our own use sufficient traditional resources to enable us and our descendants to live as distinct and independent people in our own land.

We announce our intent to obtain compensation for loss of resources and denial of their uses, where these have been destroyed or exploited by others, or where they cannot be restored.

We announce our intent to establish control of our own communities and our own resources in order to control, determine, and guarantee our future.

This is our aboriginal right and a basic, universal human right.

# Creek Monitoring Project

Musqueam Creek and Cutthroat Creek is important to Musqueam and used for traditional ceremonial and recreational purposes by the community. However, bacterial contamination has been identified in the creeks and is a health and safety concern for our community.

Activities upstream and surrounding the creeks have impacted the water quality, and are likely derived from new developments, increased urbanization, as well as outdated infrastructure and other nearby impacts.

The Musqueam Lands department received funding and is working with Arcadis (consulting company) on a project to identify the sources of contamination. The goal is to find a solution to reduce the contamination so we can safely use the creeks as our ancestors have for thousands of years.

This project will also build Musqueam's capacity to monitor and evaluate the water quality of our creeks independently.

## Get involved: Join the steering committee

There will be a number of opportunities for Musqueam members to participate in the project. One of the biggest roles will be the steering committee, which will work closely with the project team to share knowledge and provide guidance that will direct the project.

We are seeking band members with relevant experience, knowledge and insight into the cultural and ecological values of the creek. Potential members may include community health advocates, elders, youth, and people who use the creek for ceremonial bathing.

- Time commitment: monthly meetings from July - November 2024, online and/or in person, plus 1-2 creek walks
- Honouraria: \$200/meeting
- 5 positions available

### How to apply

Submit an expression of interest to Kim A. Guerin, Lands Governance Officer.  
Send via email to [kim@musqueam.bc.ca](mailto:kim@musqueam.bc.ca), or hand deliver to the band office

Deadline to submit is Wednesday, July 5.

More information is available on our website: [www.musqueam.bc.ca](http://www.musqueam.bc.ca)
