Theme - Woven Together: Extending the themes of interconnectedness and intergenerational knowledge and respecting the threads of kinship which have woven the communities working on this project together since time immemorial, the specific theme for both opportunities in this art call is weaving. **The Project team is seeking original designs respecting and promoting traditional weaving patterns.**

Art Call Opportunity 1: Graphic art design for application on sound wall	swéq^waʔ (Blankets) - Ancestral mountain goat and wooly dog hair blankets. The Project team understands the communities are rich in history and culture. The Project team has heard that swéq ^w aʔ demonstrate not only a material richness but the richness of shared kinship, connecting families and communities across the region, your teachings, and the respect for one another within and across our communities.
Art Call Opportunity 2: Art design for installation on multi-use path railing or overpass railing panel, retaining wall metal art attachments, urban node concrete etching	siten (Basketry) - The Project team understands there were a multitude of basket types based on their use: open work baskets, berry baskets, watertight baskets, storage baskets, cradles, and more. The Project team has heard these were more than storage containers and trade goods, that the patterns on these baskets represented the communities and families who made them and the variety of materials used to create them demonstrate your deep knowledge of the world around you.
